

Luigi Gentile – Chief Revenue Officer

With a background in neuroscience, Luigi has spent over two decades helping life science research and healthcare institutions develop and adopt innovative technologies to improve patient care. Luigi has held senior leadership positions across start-ups, SMEs, and large multinationals such as Olympus and GE Healthcare, where he was a commercial leader and Executive Director of Innovation for Healthcare IT, driving sales, marketing, service, product development and clinical collaborations. At BenchSci, Luigi leads the commercial business with a focus on working with pharmaceutical R&D executives to help drive the speed and success of the research organization.

Luigi is a graduate of GE's executive development programs and is frequently a lecturer on innovation across pharmaceutical and healthcare industries. He holds a Master's in both physiology and neuroscience, as well as an Honours BSc Specialist degree in human biology, all from the University of Toronto.
